

# *Hani Wells*

Green Energy & Construction

## **Our History:**

Welcome to the world of HaniWells. The company was established in 1972 with the aim to develop properties in the UK. After the first decade of establishment the company became one of the main property developers in Manchester, United Kingdom. With the passage of time HaniWells expanded its operations to Spain, Italy, Germany, France, Dubai, Amman, Abu Dhabi and Qatar.

Currently, the company is involved in the construction of public facilities like hospitals, schools, residential and commercial complex. The company also owns more than 300 self-developed properties around the world.

Due to the increasing demand of Solar Energy, the company initiated to go green by developing the Solar Power Plants in 2005. After the successful completion of projects in Europe the company expanded its operations to Middle East.

## **Our Vision & Mission:**

Our vision and mission is an amalgamation of our corporate philosophy and our motto of providing next generation development services by means of clean and reliable source of Energy.

To use our industry insights and development experience to our advantage and provide innovative, high quality, superior and cost effective energy solution that brings overall growth to our customers.

## **Our Ethics:**

At HaniWells we believe when experience, technology and teamwork combine through strategic planning incredible results are achievable. With the best interest of our clients in mind, our actions are always focused on conversions and business growth.

## **Our team:**

HaniWells employs the best talent in the industry. With the objective to provide innovative construction and energy solutions, we have the right mix of experienced resources as well as fresh minds that bring fresh approach to the table. Keeping in mind the various sectors of industry that we cater to, HaniWells employs highly skilled Project Managers, Engineers and Business developers. At HaniWells, we believe that our resources are the building blocks of our organization and they represent the face of our organization. That is primarily the reason we stress upon employing the best minds. All our resources and team members are committed to the overall growth and development and strive towards achieving this goal.

## **Our skills:**

HaniWells has hands on experience in the construction and energy solutions whether it is required within the proximity of the main areas or in a deserted place where the grid connectivity is not available.

## **Our speciality:**

Being the developer of properties, HaniWells is also specialized in installing solar energy plants both grid and off-grid connectivity.
